About Us:

Solar Energy and Technologies – India (SET- India) is an Odisha based Solar System Integrator set-up in the town of Bhawanipatna of Odisha. We execute solar power plant projects for homes, commercials, Govt entity and agriculture. We have a standard and well – positioned office facility in the town of Bhawanipatna in Odisha.

At Solar Energy and Technologies – India (SET- India), our client’s best interest always comes first, and everything we do is guided by our values and professional ethics. We ensure that we hold ourselves accountable to the highest standards by meeting our client’s needs precisely and completely. We have cultivated a working environment that provides a human sustainable approach to earning a living, and living in our world, for all our partners, workforce and for our customers. SET-India is not just a re seller of solar powered system and accessories, we do everything from analyzing whether it’s feasible for a user to go for solar, to designing, installing and maintaining the entire system for them.

QUALITY DRIVEN

SET-India believes in a quality-driven work process. Our team members are always encouraged to seek new ways to improve and innovate and we deliver Innovative, Efficient and Value-Driven solution to fulfil our customer’s need.

CUSTOMER FOCUSED

Our passion for customer satisfaction runs deep. We strive to offer the highest quality customer service and communication to exceed our customers’ expectations. We believe every project is first and foremost about genuine and rewarding relationships with our customers.

INTEGRITY & HONESTY

We value open and honest communication with our customers by sharing information, both good and bad, clearly and quickly. It is the foundation of our company that we do business this way, even though at times it may cost us money or opportunity. Because of these deep rooted principles, we say what we mean and we mean what we say.

Our Business Goal:

Our business goal is to become one of the leading solar EPC Company and we will make sure that we do all that needed to compete favourably with leaders in the industry.

Our Vision Statement:

Our vision is to establish ourselves as a standard and world class solar EPC Company whose services and brand will not only be accepted in Odisha but also in other states and cities in India.

Our Mission Statement:

Our mission is to provide affordable, efficient, reliable and sustainable solar energy solutions that will assist businesses, individuals, households and non-profit organizations in ensuring that their solar powered systems are always in good shape to produce the required power output.

Why Solar Energy?

Investing in solar energy provides benefits that go beyond saving energy, money, and the environment. Solar energy reduces up to 100% of your electricity costs, depending on system size. Utility prices are going up every year. Solar power provides you security from rising electricity rates. A solar electric system adds value to any domestic or commercial building and pays back the investment in few years. Solar is an environmentally responsible technology. Unlike fossil fuels, it does not emit pollutants which create harm to humans and the environment. It is a proven technology with panels that are backed by a 25-years manufacturer warranty.

SET-India Offerings:

SET-India has everything you need for a solar Energy System Set-up ready for Supply, Installation & Commissioning. We know quality, reliability and durability matters for setting up a Solar Project. Recognizing that every project has its own set of unique criteria, goals, and schedules, our services can be custom-tailored to meet your immediate and long-term needs. SET-India offers a complete suite of sales, design and support services to fit your specific Solar Project requirements and timeline. Our connection to leading manufacturers means you have access to a full-line of high-quality solar modules, inverters, Solar Battery, GI Mounting Structure, and other Solar system components.

We offer a wide range of Solar Products which includes MNRE Certified Solar Panels, Solar Power Plants for homes, Commercials, and Institutions (Off grid, On Grid, and Hybrid System), Solar DC Home Lighting Power Pack System, Solar DC Micro Grid System, Solar Street Light, Solar Water Pumping System, Solar Water Heater, and Solar appliances like Solar Lantern & Torch, Solar Pest Control System, Solar Lamp, solar light box etc.

SET- India Services

SET-India has established itself as a major Solar EPC company in Odisha. As an EPC contractor specializing in the design and execution of solar power plants, SET-India places special emphasis on the “on-time and on-budget” delivery of solar power plants, optimized to deliver superior output. We offer services in following way.

Engineering: Identification of site for solar installation: This includes detail analysis of site like:

- Perform shadow analysis
- Chalk -out engineering drawings like structural and electrical maps.
- Perform PV system analysis to understand monthly solar energy generation.
- Prepare chart to deliver scheduled project.

Procurement: We offer you the best brands of

- Solar Modules/panels
- Inverters
- Solar Batteries
- AC/DC Protection devices
- GI Structure, Cables and other solar accessories

Construction: Builds structure as per the approved design/drawing.

- Our experienced team constructs the solar plant as per the drawing specification and the as per the project chart to ensure in time delivery of the solar project.

Installation and Commissioning:

- Our Experience Engineer does the final installation and commissioning in front of you, Guide you the operation and issue the certificate.

SET-India has already executed several Solar System Projects in Odisha.

"Solar System installed at one of isolated mines area of Odisha by SET-India"
